

**UC / CSU / CCC
Sustainability Conference
July 31 – August 2, 2008**

California Community College Summit

**Sustainability through energy and resource efficient construction,
rehabilitation, and operation of campus facilities**

**Fred Harris - CCC Chancellor's Office
Jose Nunez – San Mateo County CCD
Bob Bradshaw – Citrus CCD
Ron Beeler – North Orange County CCD
Mike Miller – Butte/Glenn CCD
Lisa Hannaman - Southern California Edison**

California Community Colleges

A System Perspective

Fred Harris
Assistant Vice Chancellor for
Finance and Facilities Planning
California Community Colleges System Office

The Big Picture

Challenges and Opportunities for the California Community Colleges

- **Evolving public policy and public opinion**
- **Environmental benefits of using less energy**
 - Resource conservation, reduced air and water pollution
 - “Meeting the needs of future generations”
- **Reduction of Greenhouse Gas emissions (AB 32)**
 - Energy savings = Greenhouse Gas reduction
- **Governor’s Green Building Initiative (Executive Order S20-05)**
- **CCC Board of Governors Sustainability Policy includes energy efficiency goals**
- **Integration with District Sustainability policies**
- **Economic benefits of Sustainability**

System-wide Facilities Needs

Total system-wide unmet facilities needs are
\$30 Billion over 10 years

- Need 12 million new ASF to support enrollment growth
- Need to modernize 27 million ASF of existing space
 - 74% of total inventory over 25 years old
 - 45% of total inventory over 40 years old

There will NEVER be enough money!

Need to continuously LEVERAGE current and future assets with other resources & process improvements to maximize benefits for our students, through:

- Better Planning & Facility utilization
- Streamlined project delivery systems
- Forming strategic partnerships
- Benchmark to industry best practices
- Achieve Life cycle vs. first-cost savings

The Cost of Doing Nothing

Retail Price of Electricity 1980 - 2005

Source: California Energy Commission

Retail Price of Natural Gas 1980 - 2006

Source: U.S. Energy Information Agency

Dollars spent on energy are dollars taken out of the classroom!

CCC-IOU Energy Efficiency Partnership

Estimated minimum 10-Year Life Cycle Benefits from proposed 2009-11 Partnership

- 10-Year Cumulative Energy Impacts
 - Electricity Savings: 725,562,048 kWh
 - Natural Gas Savings: 23,080,884 therms
- \$1 for sustainable facilities yields \$2 energy savings
 - Every \$1 invested by a district for sustainable facilities improvements thru the 2009-11 Partnership will yield \$2 in energy savings over the next 10 years
 - Result: Capital outlay investment now provides continuing relief to district support budget

CCC Board of Governors Energy and Sustainability Policy

- **CCC Board of Governor's adopted an Energy and Sustainability Policy in January 2008**
- **Goal to reduce energy consumption from 2001-02 baseline consumption by 15% by the end of fiscal year 2011-12.**
- **Designed as a template for CCC Districts**
- **Beginning in 2010-11, incentive funding available for state funded projects:**
 - **2% of construction costs for New Buildings that exceed Title 24 by 15%**
 - **3% of construction costs for Modernization Projects that exceed Title 24 by 10%**

San Mateo Community College District Project Highlights

Energy Efficiency Rebates / Savings (to date)

- **Annual Operational Savings** (Performance Based Contract)
 - \$1.5m for entire district (electric, gas and water)
- **PG&E Energy Efficiency**
 - CAN Air Handler Retrofits: Jan 2002 - \$27,000
 - DW High Efficiency Lighting Systems: July 2002 – \$102,600
 - CSM & SKY Co-Generation: November 2004 – \$878,557
- **CCCCO / IOU / EE Partnership**
 - CSM Gym VAV Retrofit Project, CSM Lobby Chiller Replacement Project, and SKY Gym VAV Retrofit Project :December 2006 - \$81,051
- **Savings by Design**
 - CSM B35: Summer 2006 - \$2,400
 - CSM B36: November 2006 - \$56,117
 - SKY B6/7A : May 2007 - \$38,546
 - CAN 9: March 2008 - \$24,927
 - CAN FMC: Estimated \$5,810
 - SKY FMC: Estimated \$2,130

San Mateo Community College District Project Highlights

Energy Efficiency (LEED / Savings by Design)

● Upcoming New Buildings

- **Cañada College: Facilities Maintenance Center (FMC) – 18,899 gsf**
 - Total Contract Amount: \$9.8M
- **Skyline College: Facilities Maintenance Center (FMC) – 13,491 gsf**
 - Total Contract Amount: \$8.3M
- **CSM Design Build (2 Bldgs)**
 - Workforce / Wellness / Aquatic Center (5N) - 88,374 gsf
 - Student Services / Admin. / Student Activities (10N) – 104,149 gsf
 - Overall Campus Landscape & Hardscape
 - Total Contract Amount: \$142.5 Million
- **SKY Design Build (2 Bldgs)**
 - Cosmetology & Administration/Wellness Center (4N) – 70,310 gsf
 - Automotive Technology Building (11N) – 8,800 gsf
 - Overall Campus Landscape & Hardscape
 - Total Contract Amount: \$60.4 Million

San Mateo Community College District Project Highlights

Energy Efficiency

- **CCC / IOU Partnership**

- **Cañada 16/18** – Estimated PG&E Incentive \$18,720
- **Cañada 5/6/8** – Form 2 submitted
- **College of San Mateo 2/4** – Form 2 submitted
- **College of San Mateo 14/16** – Form 2 submitted
- **Skyline 5 Lighting** – Form 2 submitted
- **Skyline 7** – Estimated PG&E Incentive \$12,211
- **District Wide Parking Lot Lighting** – Estimated PG&E Incentive \$28,127

Campus Best Practices

North Orange County Community College District

Ron Beeler
Facilities Director

North Orange County Community College District

CCC/IOU Partnership Approved Projects

- Replace campus cooling equipment with central plant
- Replace gym lighting with fluorescent
- Replace outdoor lighting with pulse start metal halides
- Install VFDs on fans in several buildings

Total District Savings – 3,585,934 kWh/yr

Total District Incentive – \$1,059,653

North Orange County Community College District

Fullerton College – Central Plant

Life Cycle Cost Analysis Summary

25 Year Project Life

Capital Investment	\$12,006,000	
Annual Electricity Savings	1,300,000	kWh
Annual Electricity Savings (Year 1)	\$182,004	
Avoided Capital Investments	\$10,679,475	
Life Cycle Electric Savings	\$6,977,753	
Life Cycle Maintenance Savings	\$311,500	
Total Life Cycle Savings	\$17,968,728	
Net Life Cycle Benefit	\$5,962,728	
25-Year Net Present Value*	\$1,507,003	

*Assumptions:

3.85% Escalation for Electricity and O&M savings

4% Discount Factor for NPV

North Orange County CCD Interval Metering Program

North Orange County CCD Interval Metering Program

North Orange County CCD Interval Metering Program

North Orange County CCD Interval Metering Program

**Significant Night and Weekend Savings Achieved through
Lighting and HVAC changes = 2,518kWh (14.5% reduction)**

**Total Annual Electricity Consumption 412,518kWh
Annual Savings of 14.5% = 59,755kWh**

Campus Best Practices

Citrus Community College District

Bob Bradshaw
Construction Program Manager

Citrus Community College District

Partnership Projects Approved

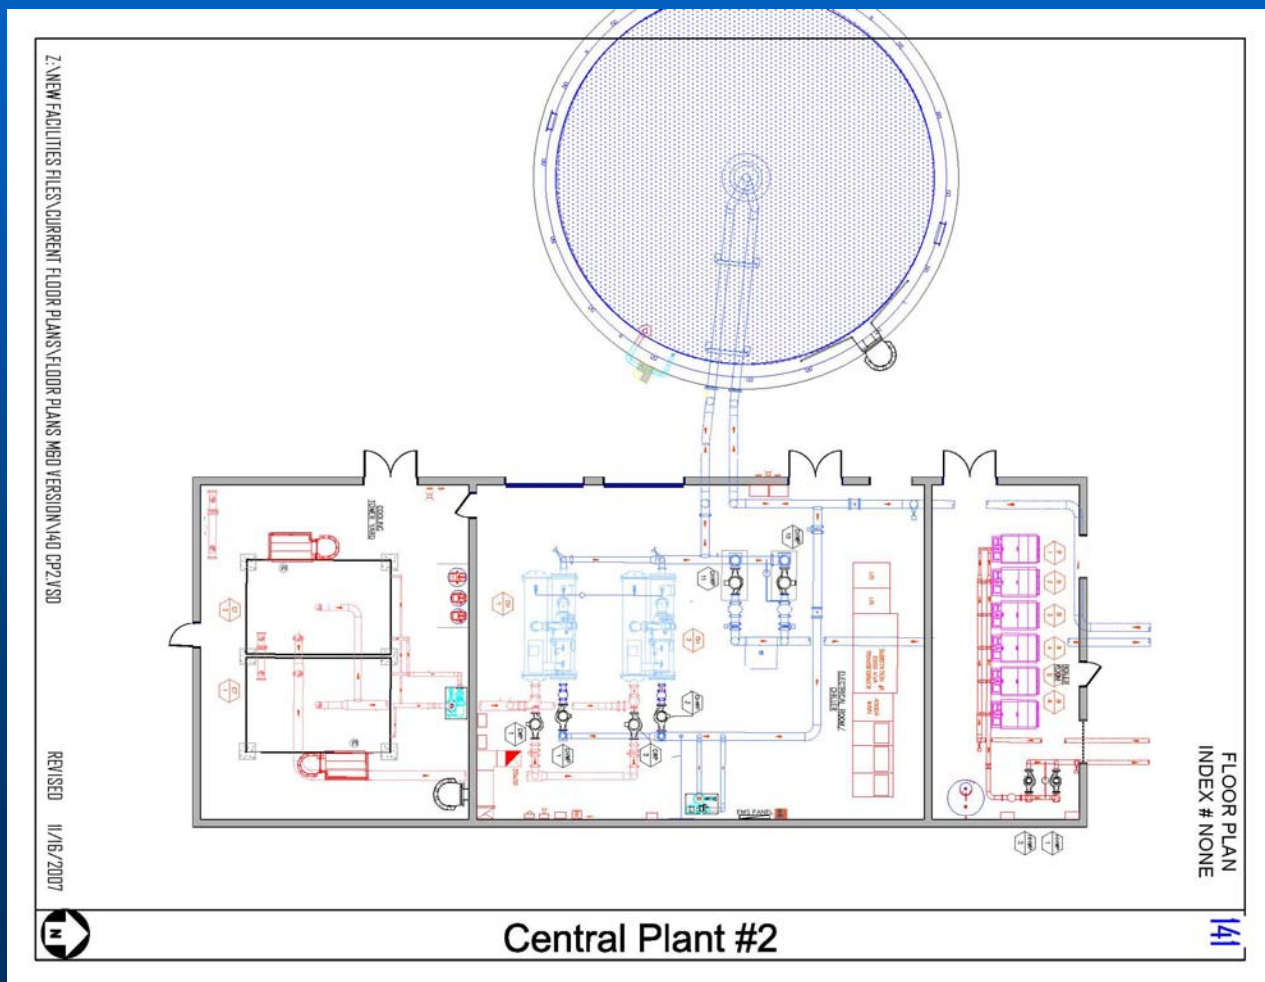

- New central plant with thermal energy storage
- Replace HVAC units with VAV system, upgrade controls
- Replace exit signs with LEDs
- New boilers

Total District Savings –1,113,621 kWh/yr and 18,495 th/yr
Total District Incentive – \$318,982

Citrus Community College District

New Central Plant Floor Plan

Citrus Community College District

Central Plant Project

Life Cycle Cost Analysis Summary

20 Year Project Life

Capital Investment	\$11,308,408
Annual Electricity Savings	1,000,007
Annual Gas Savings	18,495
Annual Energy Savings (Year 1)	\$255,036
Avoided Capital Investments	\$12,300,000
Life Cycle Electric Savings	\$3,104,445
Life Cycle Maintenance Savings	\$1,986,202
Total Life Cycle Savings	\$17,390,647
Net Life Cycle Benefit	\$6,082,239
20-Year Net Present Value*	\$4,032,898

*Assumptions:

- 3% Escalation for energy savings
- 2.85% Escalation for O&M savings
- 6% Discount Factor for NPV

Citrus Community College District

Cool Roofs

Citrus Community College District

**New Efficient
Stadium Lights**

Artificial Turf

Citrus Community College District

PIER-CCC Pilot Program

- Integrated Classroom Lighting Project at Citrus College
- Estimated to save 50% more than Title-24 requirements

Director of Facilities Planning and
Management

Butte College

LEGACY

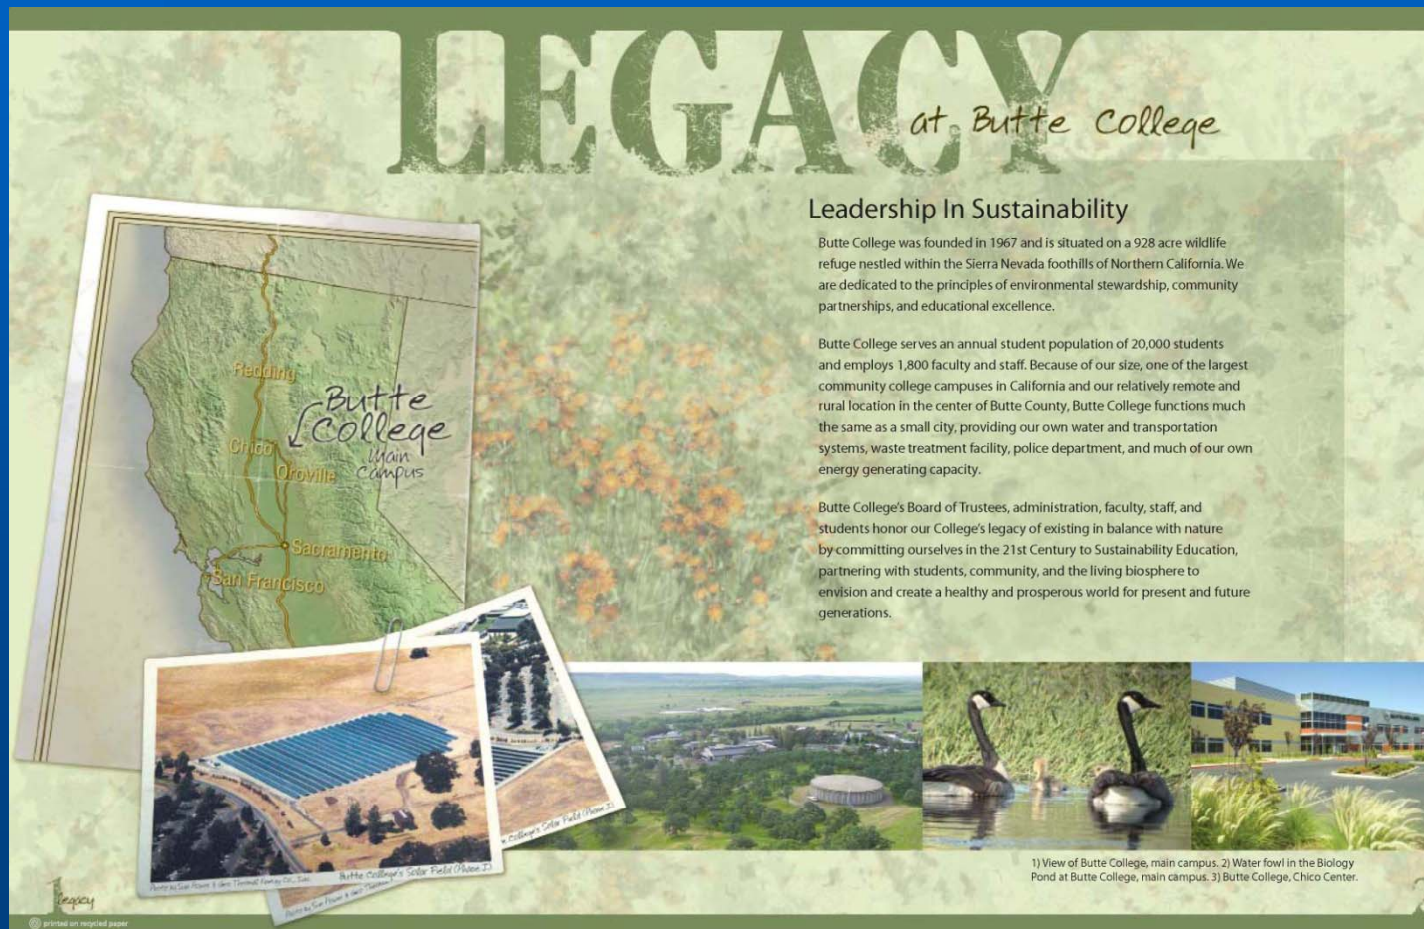

at Butte College

Leadership In Sustainability

Butte College was founded in 1967 and is situated on a 928 acre wildlife refuge nestled within the Sierra Nevada foothills of Northern California. We are dedicated to the principles of environmental stewardship, community partnerships, and educational excellence.

Butte College serves an annual student population of 20,000 students and employs 1,800 faculty and staff. Because of our size, one of the largest community college campuses in California and our relatively remote and rural location in the center of Butte County, Butte College functions much the same as a small city, providing our own water and transportation systems, waste treatment facility, police department, and much of our own energy generating capacity.

Butte College's Board of Trustees, administration, faculty, staff, and students honor our College's legacy of existing in balance with nature by committing ourselves in the 21st Century to Sustainability Education, partnering with students, community, and the living biosphere to envision and create a healthy and prosperous world for present and future generations.

1) View of Butte College, main campus. 2) Water fowl in the Biology Pond at Butte College, main campus. 3) Butte College, Chico Center.

Typical Hard Bid
'By Nature of Individual
Interests – Adversarial,
Parties Have Different Goals'

Butte College

**Construction Manager (CM) @
Risk GMAX (guaranteed
maximum price)**

Set and insist on standards especially Title 24 – 15%

Butte College

Chico Center

Exceeds Title 24 by 19%. Day lighting in all classroom spaces, and lighting and air conditioning occupancy sensors.

Butte College

Learning Resources Center

- The Learning Resource Center (LRC) was State funded with Measure A component
- Size: 72,000 square feet
- Includes classrooms, the Center for Academic Success, computer labs, and offices
- Total project cost: \$21,700,000
- Completed January 2006

Change Orders = 3.5%
30% better than Title 24

Butte College

Library Renovation/Expansion

- Originally 100% funded by Measure A; now funded by State (Prop 55) and Measure A.
- Includes 10 small classrooms, 3 large classrooms, TV studio, radio/TV/film program lab, and double library space and significantly increase access to on-line resources
- Total project cost: \$19,700,000
- Construction began March 2006 and will be completed July 2007.

Change Orders = 2.7%

29% better than Title 24

Learning Resource Center

Chico Center

Learning Resource Center

Allied Health Public Service Center

Chico Center

Chico Center

Chico Center

Butte College

Instructional Arts Building

Goal – LEED Certified

Two story, 72,000 square feet

Butte College

Instructional Arts Building

- LEED costs money but payback is fast and on-going
- \$18.6 million - construction costs
- \$265K - LEED certification, measurement and verification
- Now Title 24 – 30%
- Payback is 3.5 years – ongoing savings of \$75.6K/year
- Utility savings and life cycle cost of equipment
- Energy savings - \$0.20 cents/sq ft/year = \$14,400.00
- Facilities lifecycle mechanical savings - \$0.85 cents/sq ft/year = \$61,200.00
- LEED Certified Silver **Gold!!!**

\$258 per sq. ft

Butte College

Student and General Services

Three story, 56,000 square feet

Goal – LEED certified

Butte College

Student and General Services

- LEED costs money but payback is fast and on-going
- \$13.7 million construction costs
- \$265K LEED costs
- Title 24 – 30% or higher
- Payback is 4.5 years - on-going savings of \$58,800/yr
- Utility and life cycle cost
- LEED Certified Silver Gold Platinum (maybe)

\$242 per sq. ft

UC/CSU/CCC Sustainability Conference

Butte College

Butte College

Projects from Now to 2010

“What are we planning on doing...”

- *Construct New Instructional Arts Facility- **Steel going up in June!**
- Construct New Student/General Services Facility – **Bid open on June 10, 2008!**
- Student Center Renovation (CC) – Start planning fall 2008
- Complete Campus Wide Landscaping, Master Plan – 2009/10
- Upgrade Electrical System – 2009/10
- Network/Fiber Optic/Telecommunications – In Planning
- Upgrade Campus Intersections/Traffic Light – summer 2008
- Roadway Lighting – 2009/10
- Bus Terminal – 2009/2010

***State funding for Library, LRC and IA = \$39,547,000.00**

Butte College

Three Reasons for Success

- 
1. Collaboration
 2. Collaboration
 3. Collaboration

It is all about Leadership!

BUTTE COLLEGE

The CCC / IOU Partnership

Program Overview and Status

Lisa Hannaman
Account Executive
Southern California Edison

CCC/IOU Energy Efficiency Partnership

- The 2006-2008 CCC-IOU Energy Efficiency Partnership is designed to
 - Identify energy savings opportunities
 - Provide funding and support for energy efficiency projects
 - Provide a framework and mechanism for the implementation of a comprehensive sustainability policy
- The Partnership is comprised of four key elements
 - Retrofit projects – *Includes IT Energy Efficiency Projects*
 - Monitoring-Based / Retro-Commissioning (MBCx / RCx) projects
 - New Energy Efficient Construction (e.g. Central Plants)
 - Training and Education activities
- Anticipate continued funding in 2009 – 2011
 - But need active involvement from CCC Districts to ensure ongoing IOU investment; portfolio will be “project based” using FUSION and actual district input
 - Integration of all New Construction through the Partnership program

Who is involved?

- **All four Investor-owned Utilities**
 - SCE, SDG&E, SCG, PG&E
- **CCC Chancellor's Office**
- **All CCC Districts**
- **Newcomb | Anderson | McCormick**
 - Program administration and management

2008 Incentive Levels

	Measure	Incentive Rate
Electric	Packaged HVAC, HVAC Controls, Motors, Drives (Note: IOUs record HVAC savings from IT projects but pay no incentive)	\$0.24/kWh
	Lighting, Lighting Controls, Daylighting	\$0.15/kWh
	Central Plants, Chiller Retrofits, Whole Building, and other major Energy Efficiency Infrastructure Projects	\$0.32/kWh *
	MBCx	\$0.32/kWh *
	Plug and Process Loads - <i>IT Project Savings Incentive</i>	\$0.15/kWh
Gas	All Gas Measures	\$1.00/therm

* \$0.24/kWh in SCE territory

Be a LEADER in Energy Efficiency!

How to Participate

Work in Partnership with the Utilities to:

- Develop a local Sustainability / Energy Policy
- Brainstorm ideas for energy savings opportunities at your campus with your Staff and Utility representative
 - New Construction Bonds are a significant opportunity to “design in” energy efficiency
- Consider performing an Energy Audit at your campus
- Attend a Partnership training and education session
- Contact local utility representative and request assistance with Project Application form for CCC-IOU Partnership
- Engaging other departments on campus that may have energy saving opportunities (such as IT and Foodservice)

***Act now to make the most of these BENEFITS to your District.
The Partnership Team is here to help!***

2009-2011 Partnership Planning

Estimated Life Cycle Benefits of Targeted Portfolio Implementation

10-Year Cumulative Energy Impacts

Energy Cost Savings: \$86,896,938
Electricity Savings: 725,562,048 kWh
Natural Gas Savings: 23,080,884 therms

10-Year Overall Costs¹

Business as Usual: \$6,447,469,907
With Efficiency Projects²: \$6,405,745,461
Overall Benefit to CCC: \$41,724,446

Notes:

- 1) SMSR, Capital Outlay, energy costs
- 2) Includes reduction in energy costs and incentives
- 3) All figures are 10-year NPV, 2008 dollars

10 Year Effects of 3-Year Program Implementation
Statewide CCC Campus Energy Costs (IOU Served Campuses Only)

Partnership Process – *how to get the money!*

- **Develop energy savings calculation**
- **Submit Project Application (Form 2 or NRR-DR) to IOU**
- **Pre-construction field verification**
- **Project Implementation**
- **Notification to IOU of completion**
- **Post-construction field verification**
- **IOU payment of incentive check**

Process Details

- **Project Application**
 - Two parts:
 - Incentive application
 - Project information
- **Energy Savings Calculations**
 - Calculation subject to audit by CPUC
 - IOUs have developed Excel-based calculator for Server Virtualization projects
 - Calculates energy savings
 - Calculates estimated incentive
 - May use own calculation, if desired

Your local IOU Account Representative can assist you with these steps!

Savings By Design – New Construction

Proposed Changes for 2009-2011

- New Construction included in the Partnership program
- Owner Incentive from \$150,000 to a maximum of \$500,000
- Design team: \$50,000 max, based on Owner Incentive, for a whole building project (something substantial or LEED)
- \$5,000 Design Team Stipend for Integrated design
- 10% additional incentive for LEED certification
- 10% additional incentive for commissioning agents (enhanced-yes)
- 10% additional incentive for Measurement and verification after completion of the building.
- To summarize "kickers": a project can earn an additional 10% - 30% on top of their calculated Incentive.

Savings By Design – New Construction

- **SAVINGS BY DESIGN** is a program to encourage high-performance nonresidential building design and construction. Sponsored by four of California's largest utilities under the auspices of the Public Utilities Commission, Savings By Design offers building owners and their design team a wide range of services:
- Design Assistance provides information and analysis tailored to the needs of your project to help you design the most efficient building possible.
- Owner Incentives help offset the costs of energy-efficient buildings.
 - Two Approaches for Participation:
 - Whole Building Approach
 - Systems Approach
- Design Team Incentives reward designers who meet ambitious energy efficiency targets under integrated design or Whole Building Approach.

Owners and design team members are eligible to participate. Contact your utility New Construction Representative early in the design process to determine funding availability, to learn about other program options, and to enhance your project's energy efficiency potential.

Project must be located within the service territories of:

- Pacific Gas and Electric Company
- San Diego Gas and Electric
- Southern California Edison Company
- Sacramento Municipal Utility District

Additional Resources

- **Utility Program Portfolio**
 - California Solar Initiative (CSI)
 - Self Generation Incentive Program (wind, fuel cells)
 - Savings by Design (SBD)
 - Demand Response
 - Energy Watch Partnerships
 - Third-Party Programs
 - Utility Sponsored Climate Change Programs
- **Utility resource centers**
 - PG&E Pacific Energy Center (PEC)
 - SCE's Customer Technology Application Center (CTAC)
 - Agriculture Technology Applications Center (AGTAC)
 - SCE Ag Center in Tulare
 - Vocational Training (PG&E Stockton Training Center)
 - PG&E Food Service Technology Center
 - Sempra Energy Resource Center - Downey

Talk to your Utility Account Representative for more info!

How to Find the Money

- **Historical level of utility spending on utility programs = \$2 billion statewide over 3 years !!**
- **Energy \$Mart**
 - Contact: Patrick Mullen, Department of General Services, (916) 375-4617
- **CEC Loan Program**
 - Contact: Virginia Lew, California Energy Commission, (916) 654-3838
- **Performance contracting – ESCO's**
 - Customize approach to meet campus needs
 - Best source of information is from other CCC Districts
- **Local and State Bonds**
- **Scheduled Maintenance Budget and Block Grant Funding**
- **Many projects pay for themselves in 3 - 5 years through avoided costs**
